

## **A Message: Don't Panic; The Absurdity of CoronaVirus and The True Story**

**Dr. Mosab Hawarey<sup>1</sup>**

**2020 May 03**

I have written three messages in Arabic<sup>2</sup> about the issue of CoronaVirus; they totalled 6 pages. To target a bigger audience, this one single message is written in English, putting things in further context, stating more details, and using more references.

A brilliant plan means nothing if the execution isn't flawless; the panic triggered in humanity due to the so-called CoronaVirus Pandemic, all together with the subsequent steps of deliberate destruction of economies around the world, is a brilliant plan even if its reality has been exposed, as it has been well-crafted and well-executed. At the beginning, I wasn't sure about the origin of the virus, its infectiousness, its infection fatality rate (i.e. ability to kill), and the reality of the number of fatalities. With every passing day, data has been coming in. An objective mind must always assess real data as is, not as it wishes them to be; no matter how many PhD's you might have, if you don't keep an open mind and objective approach towards realities, you cannot be regarded a real scientist; unfortunately, fake scientists are all around us, and with their subjectivities, prejudices, narrow-mindedness, and undisciplined handling of data, we find many of them ascend in the academic ranks and start to be presented to the public as authorities in their subject matters, while the real scientists watch them on TV's and feel sorry for the fact that in many occasions truth is being buried because of cheap considerations. Let's look at the statistics.

Based on real-life numbers, you have a 0.03% chance of dying due to CoronaVirus in the state of California; that's 3 of every 10,000 people, while that chance is 0.01% in the state of New York; that's 1 of every 10,000 people (Ref#1). While a Berkley study (Ref#2) mentions two studies from Stanford (Ref#3) and from USC (Ref#4) to claim a higher rate of 0.1%-0.2%; that's 10 to 20 of every 10,000 people, it reports its own findings of a higher rate: 0.5%; that's 50 of every 10,000 people, heavily using Italian numbers, and it still says: "If you want to know what are the chances of dying from COVID-19 if you get infected, we observed that a very simple answer seems to fit a lot of data: It is the same as the chance of you dying over the next 12 months from normal causes".

The sharp decrease in the probability of death due to CoronaVirus is because those who have been diagnosed to be infected are a very small portion of the real infected populace. A Göttingen study has estimated that those diagnosed are no more than 6% of the real cases,

---

<sup>1</sup> Geodesist; Associate Professor; Archaeology Fan; Black Swan Hunter; Cigar Lover; (<http://mosab.hawarey.org>).

<sup>2</sup> Arabic messages can be accessed at (<http://mosab.hawarey.org/ar.html>).

with the rates in the UK 1.2%, the US 1.6%, Spain 1.7%, and Italy 3.5% (Ref#5). This number of 6% shows up again (i.e. 1%-6%) in Silicon Valley (Ref#6); another conclusion is that those really infected are 50 to 85 fold the confirmed cases. So, right now, since the confirmed cases in the world are around 3,333,000 diagnosed cases (Ref#7), the real infected ones are 166,650,000 to 283,305,000 real cases. With the number of reported fatalities right now are 235,000 deaths (Ref#7), we have a fatality rate of 0.08% to 0.14%; that is 8 to 14 of every 10,000 people; fair to say 11 of every 10,000 people. What are the normal rates of deaths? For the year 2020, the CIA's Factbook gives these estimates (randomly selected): in the US 83 of every 10,000 people, in Russia 134 of every 10,000 people, in Italy 107 of every 10,000 people, in Belgium 98 of every 10,000 people, in Germany 121 of every 10,000 people, in Spain 93 of every 10,000 people, in the UK 95 of every 10,000 people, in Algeria 44 of every 10,000 people, in Nigeria 91 of every 10,000, in India 73 for every 10,000 people, and finally in my hometown Jordan it's 34 for every 10,000 people (Ref#8); summary in Table # 1 below. So, how is it possible for any sane person, with a healthy and functioning brain, to be afraid of this so-called CoronaVirus?

Table # 1: Fatality Rate of CoronaVirus versus Normal Death Rates of Some Countries

Fatality Rate of CoronaVirus Pandemic	11 of every 10,000 people
Normal Death Rate in the US	83 of every 10,000 people
Normal Death Rate in Russia	134 of every 10,000 people
Normal Death Rate in Italy	107 of every 10,000 people
Normal Death Rate in Belgium	98 of every 10,000 people
Normal Death Rate in Germany	121 of every 10,000 people
Normal Death Rate in Spain	93 of every 10,000 people
Normal Death Rate in the UK	95 of every 10,000 people
Normal Death Rate in Algeria	44 of every 10,000 people
Normal Death Rate in Nigeria	91 of every 10,000 people
Normal Death Rate in India	73 of every 10,000 people
Normal Death Rate in Jordan	34 of every 10,000 people

So, even if we take the highest estimate of “50 of every 10,000 people” from Berkley into account, the vast majority of countries have higher normal rates of death. Not only that, but the UK's Office for National Statistics (ONS) just published something very interesting: “For deaths involving Covid-19 between March 1 and April 17, the mortality rate in the most deprived areas was 55.1 deaths per 100,000 population, compared to 25.3 deaths in the least deprived areas” (Ref#9). So, even the worst numbers indicate 5.51 deaths per 10,000 population, which is extremely trivial when compared to normal death rates. Furthermore,

the deliberate focus on this hoax pandemic<sup>3</sup> is causing all resources to be directed to it. This, in turn, is expected to cause catastrophic increase in avoidable deaths: “150,000 Brits will die an ‘avoidable death’ during coronavirus pandemic through depression, domestic violence and suicides” (Ref#10). This is a direct consequence of locking people in homes, shattering their income sources, not admitting seriously-ill elderly people to medical care. Almost 50% of all deaths in Europe are happening in nursing homes (Ref#11); the same in Canada: “The virus has killed nearly 2,300 people in Canada. In the two largest provinces, Ontario and Quebec, elderly patients in nursing homes make up about three-quarters of all the deaths from COVID-19.” (Ref#12); the issue is widespread that “authorities in US, Canada, Italy, France and Spain launch investigations into response of several nursing homes” (Ref#13), which is totally incomprehensible because it has been well-known that those are the most vulnerable; turning a blind eye is nothing less than a deliberate culling operation of the elderly going on every single day of this hoax pandemic. Let me give an example: you bring 10,000 extremely sick and weak elderly people and line them up along a cliff, then you bring a 5 year old kid and ask him to push them off the cliff; in all innocence: he manages to do that; then you declare the kid the most blood-thirsty criminal on the surface of the planet; seems righteous? A lot of news outlets talk about Italy and how it has been hit very hard: as of April 27th, it had 24,780 deaths, but only 1,185 deaths are below the age of 60; less than 5% (Ref#14); they deliberately ignored the elderly, as in many other countries. If this were a covert operation, I would have called it “Operation Culling of Rotten Chicken”, as Saddam Hussain’s Intelligence Agency once nicknamed one of its covert operations (Private Reference).

The panic is fabricated; there is no reason whatsoever for the general population to be afraid, and certainly there is no health-related emergency to justify the destruction of the economies worldwide; you don’t dismantle a field hospital without treating one single patient if this were for real (Ref#15). Even the CDC in the US says CoronaVirus is not the leading cause of death in the US: “He noted that between January and April in 2018, more than 234,000 people in the United States died of heart disease and nearly 199,000 died of cancer”; why no massive panic due to heart diseases or cancer? Why isn’t all the media is hysterical about such diseases? Because the general public would be laughing at them if they do; won’t succeed in triggering massive panic, massive curfews and lockdowns, total destruction of economies; unprecedented fast rate of job losses and numbers of unemployment; total and synchronized chaos in many critical industries at various layers, like banking, energy, freight, agriculture, restaurants, supply chains, payments, education....etc.

Up to now; there are 19,615,000 deaths in the year 2020 on Earth; CoronaVirus, which caused total destruction in global economies, has caused only 235,000 out of them (Ref#7);

---

<sup>3</sup> The virus exists, I don’t deny that; but there is no pandemic: it’s a hoax pandemic based on real-life studies and statistics.

**this whole thing is nothing but THE ABSURDITY OF CORONAVIRUS. Something else is going on. When I came up with a plan to return to normal life in a world of CoronaVirus, using Geospatial Intelligence<sup>4</sup>, I thought it would trigger some interest; it didn't; as the statistics prove beyond doubt: the whole pandemic hoax is fabricated to cause massive disruption to normal life, and it must mature before allowing any return to normal life; once it matures, the virus will suddenly start to disappear, and media will be rallying to announce victory against the invisible enemy. So, what's going on?**

**When the Soviet Union collapsed, a seemingly unipolar world emerged, with the US as the only superpower. While this is far from the truth, it has been accepted widely by the general public and elites around the world. A new multipolar world order has become a necessity, but many affairs must be done in preparation for that. A three-phase plan was devised to establish the new world order. Phase One: 2001 Sept 11 incidents, causing hysteria that justified the attacks against and destruction of nations and political regimes under false pretexts; nations and political regimes that now have proven to be totally innocent of any role in 9/11<sup>5</sup>, but the millions of lives lost and trillions of dollars lost aren't worth a total change of course; the course is being kept; why? Because it was Phase One: Horror at State Level; "You're either with us, or against us"<sup>6</sup>; that wasn't addressing the general public, it was addressing politicians and political regimes; Phase One was successful.**

**Phase Two took place during the 2008 financial crisis, where all the business and trade environments were stress-tested, decisions were taken regarding which institutes to be bailed out and which ones to let go, further testing of SDR as a potential global currency, total restructuring of the banking and insurance sectors. Phase Two: Horror in Finance, was successful. Yet, ordinary people haven't been touched yet; nothing relevant to them has taken place yet; that's phase three; that's the hoax pandemic of 2020.**

**Phase Three is taking place as I write this message; it targets the ordinary people; the domestication of societies is extremely hard, hence many issues must be done: triggering panic in the hearts of billions of humans and driving massive numbers into poverty are absolutely necessary to be successful in this phase. The most important discovery when it comes to CoronaVirus, which relates directly to my argument of phase three, has been buried by shock and awe orchestrated campaigns worldwide; the fact that few Indian researchers found in January that CoronaVirus has segments of HIV virus, which makes it absolute**

---

<sup>4</sup> The plan can be accessed at ([http://mosab.hawarey.org/GEOINT\\_Normal\\_Life\\_COVID\\_19.pdf](http://mosab.hawarey.org/GEOINT_Normal_Life_COVID_19.pdf)).

<sup>5</sup> No genuine documentation has proven otherwise up to now; claims of the existence of such genuine documentation are yet to be proven.

<sup>6</sup> This phrase was used by Lenin, Orwell, Mussolini, Tutu, Hillary Clinton, and George W Bush (Ref#16); do you see a pattern?

impossibility for this to occur in a natural manner (Ref#17). Those researchers were pressured to pull and bury their research, as French virologist and medicine Nobel laureate Luc Montagnier<sup>7</sup> stated, who himself believes the CoronaVirus is lab-made (Ref#18). When you link that with the extremely sensitive information disclosed by Dr. Rashid Buttar (Ref#19) about the personal role of Dr. Fauci in funding Wuhan Lab with millions of dollars to do exactly what paved the road for this pandemic hoax to occur, you reach phase three: orchestrated campaigns by media outlets worldwide to trigger massive panic over personal health (everyone panics when it comes to his/her health and his/her kids' health) that justifies curfews and lockdowns with no resistance by the populations at all<sup>8</sup>, destroying chain supplies, destructing economies, annihilating great portions of small and medium businesses, causing massive unemployment, increasing poverty, and certainly causing millions of unrelated and unnecessary deaths under the disguise of fighting a pandemic. In Phase Three: Domestication of Societies, the security forces, police and armies, are all tested in their relations to the public, their efficiency and effectiveness in enforcing the measures, and their handling of any civic unrest; worldwide practice is being conducted before our eyes. Up to now, this phase has been successful. Once concluded, the stage will be set to establish a new world order; a world order that will be built on five poles: US, UK, EU, Russia, and China. Each of these poles will have its own duties and roles, and they shall function as a Global Government<sup>9</sup>. This is one of the reasons for the extreme rush to realize Brexit, as "The City" in London has a unique role, and hence the UK must be an independent pole. This does not necessitate the demise of current political regimes; at least the majority of them will survive; the most problematic and trouble-making states and/or political regimes shall be taken out; each case is unique and will be handled separately. With new roads of trade, routes of commerce, global currency(ies), digital revolutions, approaches to education and businesses, identification concepts, local and regional hegemonies, altered sovereignties; it shall be a new world order. While it can take place without further war because the pandemic hoax has been very effective in destroying human dignities, I personally believe a limited war would further justify and strengthen the case for a new world order. Hence, the orchestrated and fabricated political and military tensions between the future multiple poles; take a look at the below pieces of information I gathered from the Internet<sup>10</sup>:

---

<sup>7</sup> Montagnier won the 2008 Nobel Prize for Medicine along with Françoise Barré-Sinoussi and Harald zur Hausen for the discovery of the human immunodeficiency virus (HIV).

<sup>8</sup> Actually, a weird global sentiment of self-defeat and emotional bankruptcy has emerged; you are locked down, waiting for a virus to come and kill you, and you can do nothing; what would cause the destruction of human awareness and personal self existence more than that!

<sup>9</sup> Interesting that former British PM Gordon Brown is now urgently calling for a new global government to be immediately created and established to rule over the world! Former US Secretary of State Kissinger's statements are along the same lines!

<sup>10</sup> No references are provided for this section; those who really care should be able to find them on their own; I honor the copyrights to their respectful undisclosed bearers!

1. **British Navy shadows Russian ships in March after 'high activity' in Channel;**
2. **Russian fighters shadow US bombers, NATO fighters shadow Russian bombers, Japanese / Chinese / British / Belgian / Norwegian fighters / bombers, Guam, Mediterranean, Baltic, Taiwan, Black Sea, Barents and Norwegian Seas; you got the idea; almost every day such news are coming since February;**
3. **Russia, in April, says the US is possibly testing nuclear weapons in Nevada;**
4. **The US, in April, says China had possibly tested nuclear weapons in Lop Nur;**
5. **US President declares disaster declarations for all 50 States for the first time in US history;**
6. **Late March, the US Northern Command has dispersed essential command and control teams to multiple hardened locations, including the famous Cheyenne Mountain bunker complex in Colorado, as well as another unspecified site, and is keeping them in isolation; a war act coming at the same time as the US President ordered the immediate call-up of one million ready reserve combat troops;**
7. **China's first big-deck amphibious assault ship exploding into flames at its port in Shanghai, just after US aircraft carrier USS Theodore Roosevelt was taken out of duty due to CoronaVirus, in April;**
8. **In mid April, US President ordered the activation of Joint Task Force National Capital Region (JTF-NCR) whose military forces have prepared to deploy to the streets of Washington D.C. to enforce martial law; an elite US combat force comprising almost 10,000 uniformed personnel reporting directly to the Secretary of Defense, and are already on 24/7 alert;**
9. **A test on 15 April of the PL-19 Nudol anti-ballistic missile interceptor that also functions as an anti-satellite weapon; it exactly coincided with an as yet unidentified satellite exploding in space, its falling slowly in flames through the atmosphere, and then crashing somewhere in the United Kingdom; extreme US anger erupted because of that;**
10. **After that test, ordering the US Air Force to abruptly end its continuous nuclear bomber presence on Guam after 16-years and immediately return all of its B-52s back to the US;**
11. **A heavy B-1 Lancer Heavy Bomber, on 21 April, took off from its base in the US, accelerated to supersonic speed while racing to Asia in the skies over the Bering Strait, where it decelerated to subsonic speed and was joined by an armada of heavily armed US Air Force and Japanese Defense Forces fighter aircrafts, and while flying past Russia's Kamchatka Peninsula, was observed shooting out long-range missile targeting radar signals throughout mainland China, specifically into cities known to have bioweapon laboratories, after which this B-1 heavy bomber turned around and flew at supersonic speed to return to its base in the US;**

12. Once the B-1 landed safely, US Secretary of State Pompeo went on nationwide television to blast Communist China over its coronavirus transparency failures, and ominously warn them: “We know it began at one lab...They need to be held accountable”;
13. Late April, China expelled by military force the US Navy guided missile destroyer USS Barry from what it claims are its territorial waters, while warning the US: “This US provocative action seriously violated international law and related norms, seriously violated Chinese sovereignty and security interests; we urge the US side to focus on epidemic prevention and control on its homeland and immediately stop military actions against regional security, peace and stability”;
14. Then, the US immediately countered that by throwing two even more powerful US Navy warships into these contested waters;
15. As the above happened, Chinese waters are being surrounded by US Navy attack submarines armed with ship-killer missiles, which just days ago were joined for the first time in this crisis by US Marine fighter aircraft flying out of their Japanese bases armed with live Harpoon anti-ship missiles;
16. Late April, Placement of low-yield nuclear weapons on American submarines as the US prepares for war, and the Pentagon statement that “*Russia more dangerous than ISIS*”;
17. Russia, replying to the above statement by warning that any US attempt to use a low-yield nuclear weapon against a Russian target would set off a massive and crushing nuclear response;
18. Late April, US President activated US Customs and Border Protection's Air and Marine Operations Division, known as the AMO, whose unmarked tinted-masked windowed S-76 helicopters outfitted with advanced telecommunications are now buzzing through the skies of Washington D.C. near hourly;
19. Late April, US President's top White House advisor Peter Navarro said: “This is a war; it's a war that China started by spawning the virus, by hiding the virus, by hoarding personal protective equipment during the time it hid the virus”;
20. Mid April, Chinese aircraft carrier Liaoning and its strike group (five accompanying warships) steamed through the Miyako Strait and past Taiwan; a clear show of force in waters that are conventionally under the hegemony of the US since WW2.

I can keep going with news like that, but I believe this much is enough to conclude that the stage is set for a possible controlled war<sup>11</sup> to further justify the establishment of the new world system.

---

<sup>11</sup> Uncontrolled war means total destruction to all parties involved, as all are nuclear powers; such scenario is unthinkable, taking into account that military acts must serve political purposes, and as possible part of Phase Three, an uncontrolled war is improbable, as it won't serve its purpose.
